

GCET 2019

USA-India Conference on

THE NEXT GENERATION GREEN CHEMISTRY/ENGINEERING AND TECHNOLOGIES GRADUATE PROGRAM

OCTOBER 24, 2019 | FLORIDA POLYTECHNIC UNIVERSITY, LAKELAND, FLORIDA, USA

The focus of the GCET-2019 conference is to discuss and deliberate the importance of the next generation green chemistry, engineering and technologies for sustainable development and to strategically develop recommendations by the panel of experts from academia, industry, government and non-profits to develop an international curriculum and graduate program.

A group of graduate and undergraduate students from the United State and India who are currently pursuing research on the aforementioned thematic areas will showcase their research findings and interact with eminent national and international experts.

The program will include keynote and invited talks on cutting-edge research and pedagogical education on the green technologies that lead to sustainability and will be a springboard for the international curriculum implementation.

AGENDA

- Welcome address, keynote and invited talks
- Panel discussions and recommendations on International Curriculum Development on Green Chemistry and Technologies for Sustainable Development Graduate Program
- Students' research presentations
- Parallel informative sessions
- Tour of Florida Polytechnic University

PATRONS

Dr. Randy Avent, President,
Florida Polytechnic University, USA

Dr. Raj Kumar, Vice Chancellor,
Panjab University, India

21ST CENTURY INDO-US KNOWLEDGE INITIATIVES PARTNERSHIP PROJECT DIRECTORS:

USA Project Directors - Dr. Sesha Srinivasan and Dr. Jaspreet Dhau

India Project Directors - Dr. Ganga Ram Chaudhary and Dr. Rajeev Kumar

Indo-US Project Advisor - Dr. K.K. Bhasin, Panjab University, India

Early bird registration is through October 15 (\$25 SAVINGS) • Late registration from October 16-23.
